**Plasma-derived Products Market Regional
Analysis, Demand Analysis and Competitive
Outlook 2025-2032**

Market Overview

The global plasma-derived products market was valued at USD 29,860 million in 2024 and is projected to reach USD 51,540 million by 2031, exhibiting a compound annual growth rate (CAGR) of 8.1% during the forecast period.

Plasma-derived products are therapeutic biologics manufactured from human plasma, which contains critical proteins such as immunoglobulins, clotting factors, and albumin. These products are vital for treating life-threatening conditions including hemophilia, primary immunodeficiency disorders, and autoimmune diseases. The market is segmented into immune globulin (which held a 51% revenue share in 2023), coagulation factors, albumin, and other specialized plasma proteins.

Market size

MARKET INSIGHTS

2024

USD 29,860 million in 2024

2032

USD 51,540 million by 2031

CAGR

CAGR of 8.1%

Segment Types

- **Immune Globulin**
- **Coagulation Factor**
- **Albumin**
- **Others**

Segment Application

- Hospital
- Retail Pharmacy
- Other
-

Our Key Players

- Takeda
- CSL
- Grifols
- Octapharma
- Kedrion
- LFB Group
- Biotest
-
