**HEALTH PRODUCTS MARKET REGIONAL
ANALYSIS, DEMAND ANALYSIS AND
COMPETITIVE OUTLOOK 2025-2032**

•

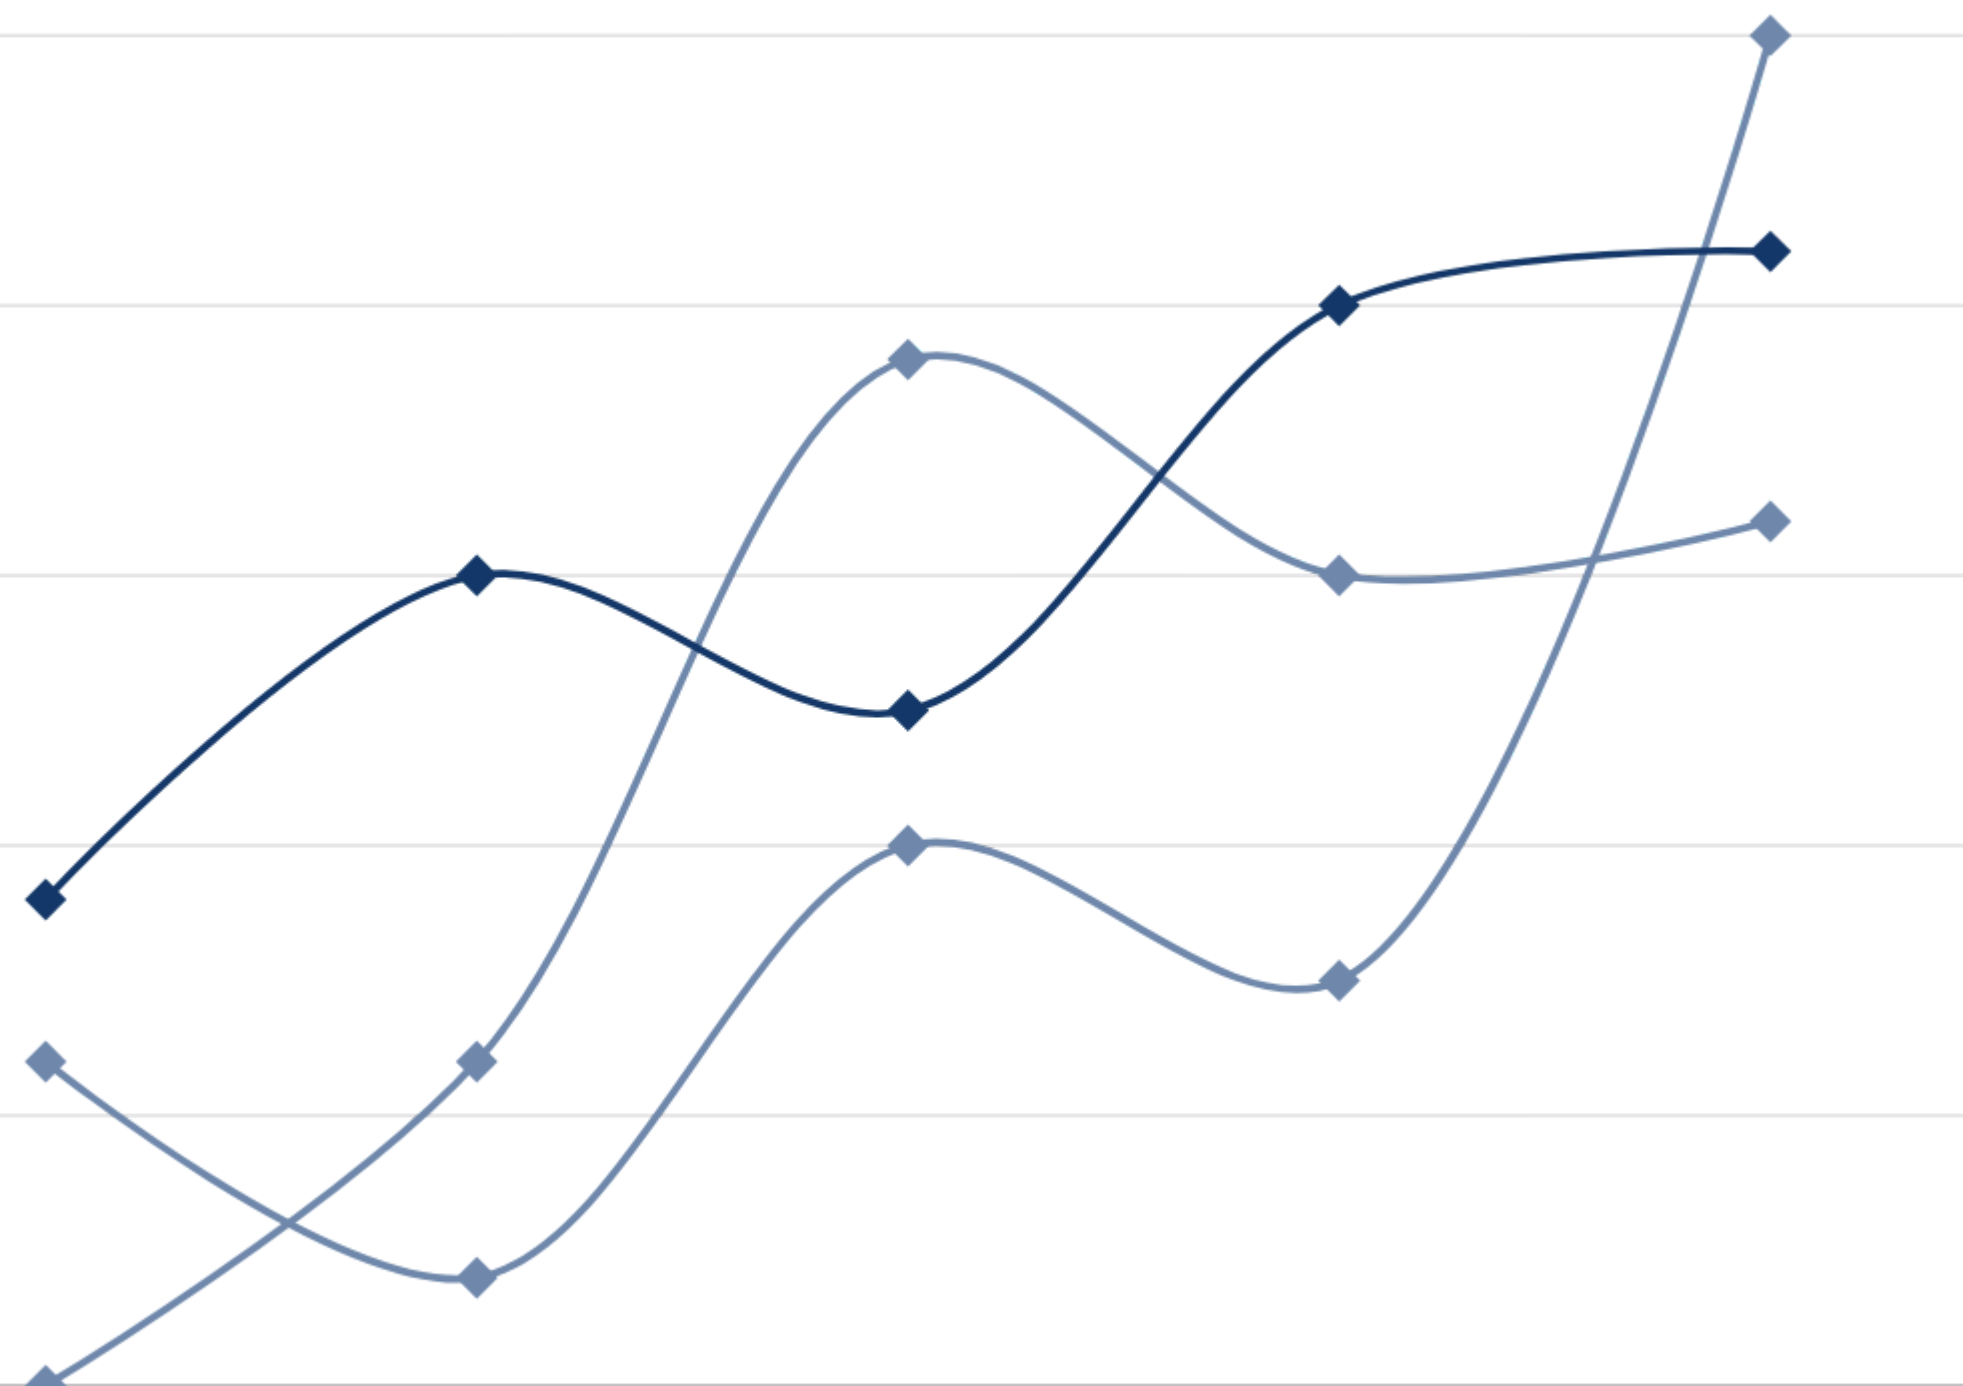

Market Overview

The global health products market was valued at USD 74,490 million in 2024 and is projected to reach USD 98,120 million by 2031, exhibiting a compound annual growth rate (CAGR) of 4.1% during the forecast period. Health products encompass a range of goods including dietary supplements, vitamins, minerals, and specialized nutrition products designed to support general health and wellness. These products are regulated differently across global markets but generally fall under the category of foods for special dietary use or nutraceuticals, distinct from pharmaceutical products intended to cure diseases.
