**OTC ANTI-INFECTIVE MEDICINE MARKET
REGIONAL ANALYSIS, DEMAND
ANALYSIS AND COMPETITIVE OUTLOOK
2025-2032**

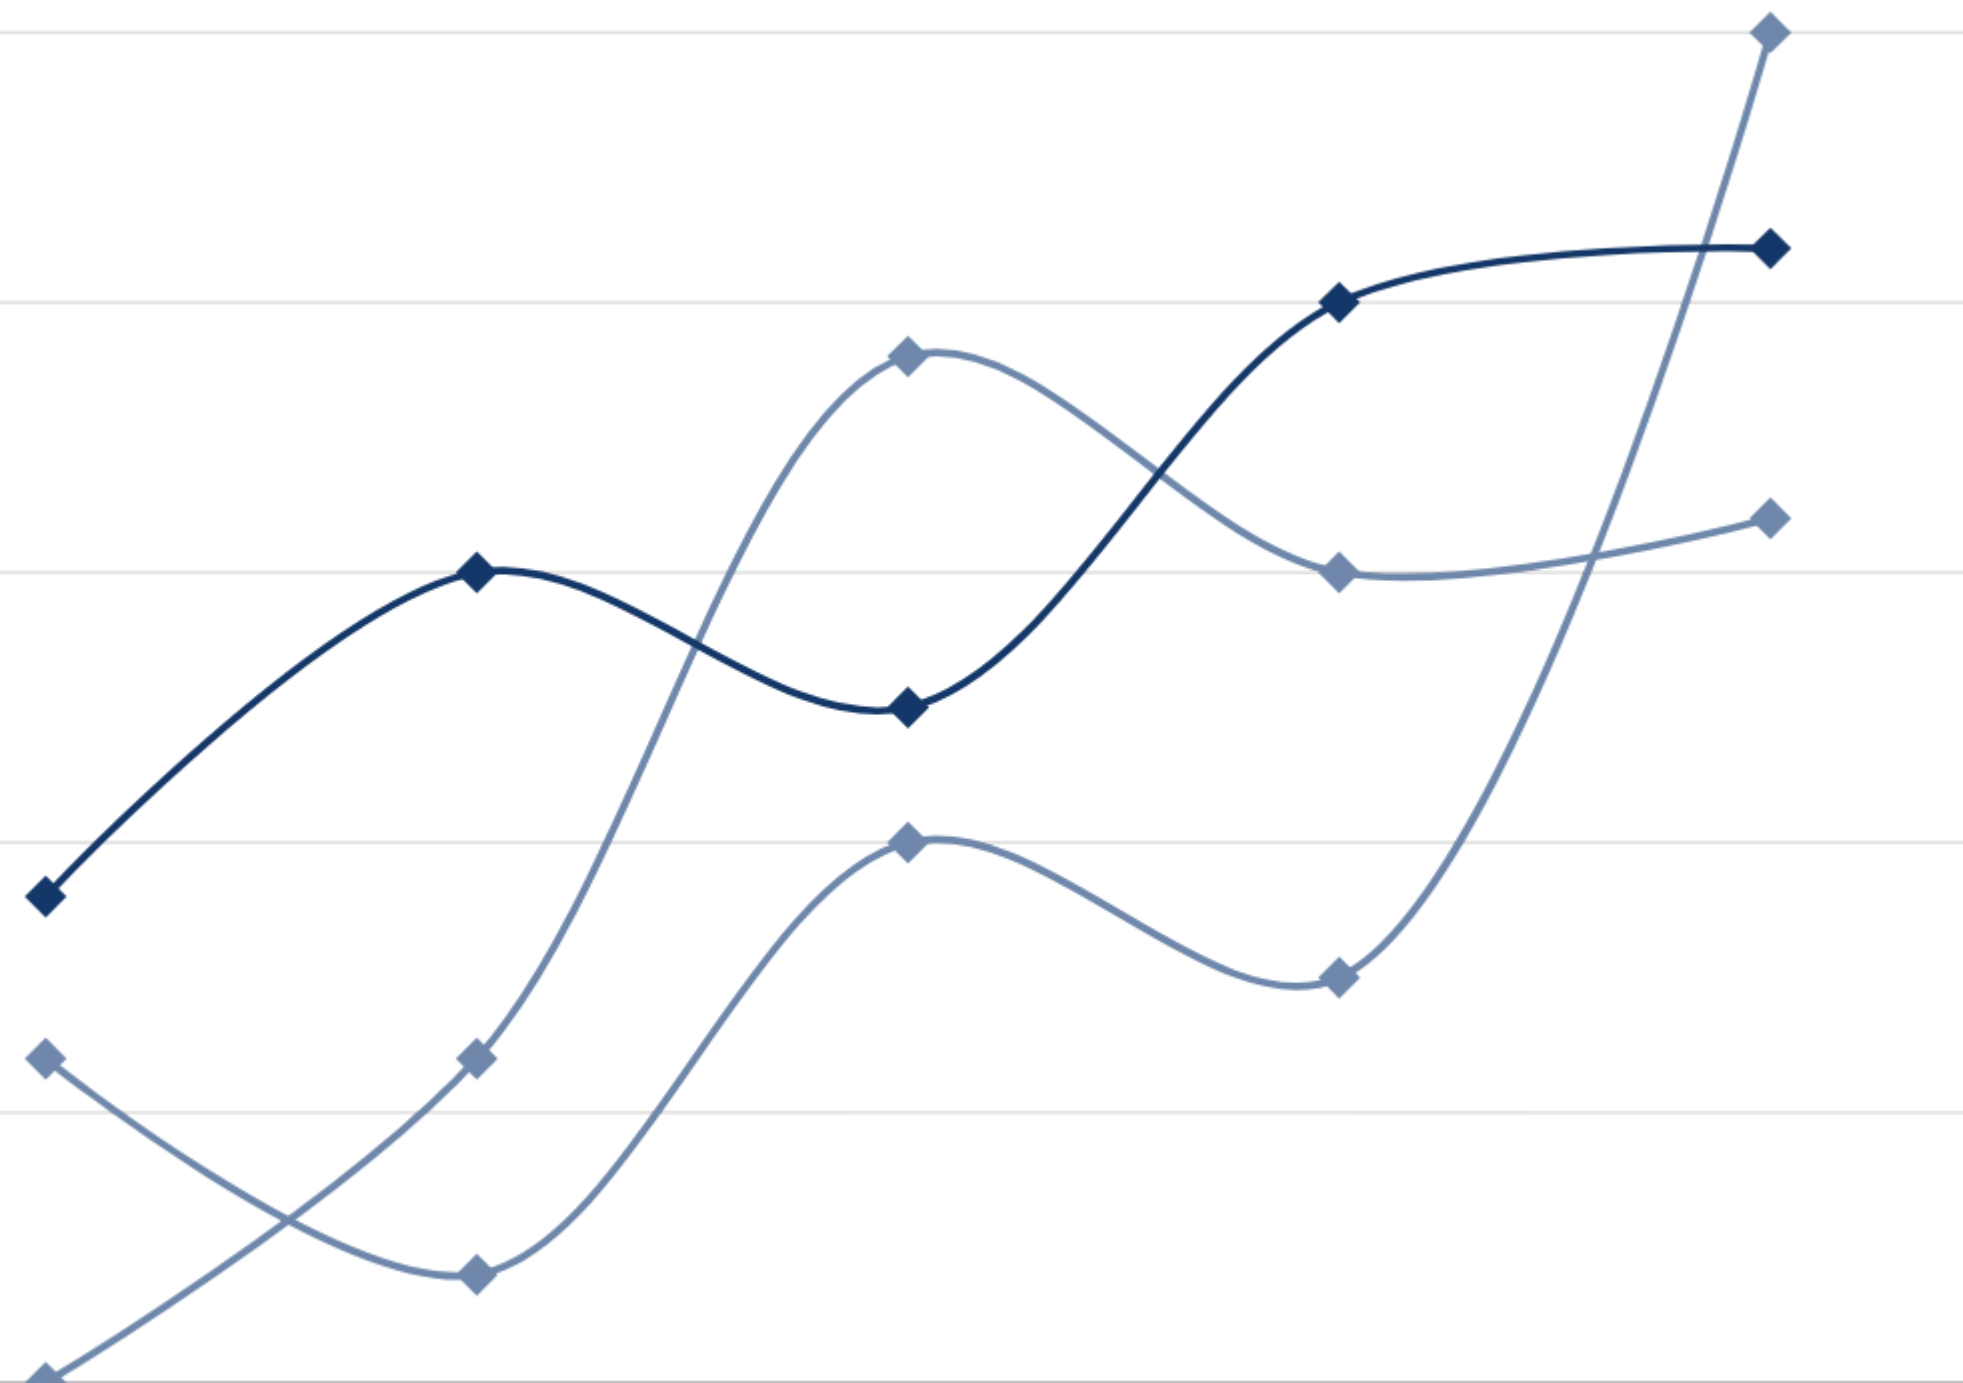

Market Overview

The global OTC anti-infective medicine market size was valued at USD 13.38 billion in 2024. The market is projected to grow from USD 14.12 billion in 2025 to USD 17.13 billion by 2031, exhibiting a CAGR of 3.7% during the forecast period.

OTC anti-infective medicines are pharmaceutical agents available without prescription to prevent or treat infections. These include four major therapeutic classes: antibacterials (such as topical antibiotics), antivirals (like cold sore treatments), antifungals (including athlete's foot creams), and antiparasitics (such as lice treatments). Unlike prescription counterparts, these medications typically treat minor infections with established safety profiles.

Market size

MARKET INSIGHTS

2024

USD 13.38 billion in 2024

2032

USD 17.13 billion by 2031

CAGR

CAGR of 3.7%

By Type

- **Antibacterials Medicine Segment Dominates the Market Due to its Widespread Use in Treating Common Bacterial Infections**
- **The market is segmented based on type into:**
 - **Antibacterials Medicine**
 - **Antivirals Medicine**
 - **Antifungals Medicine**
 - **Antiparasitic Medicine**
 -

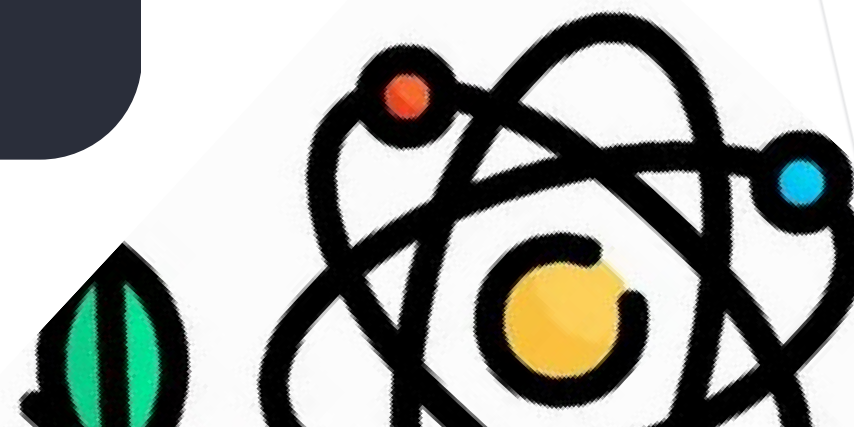

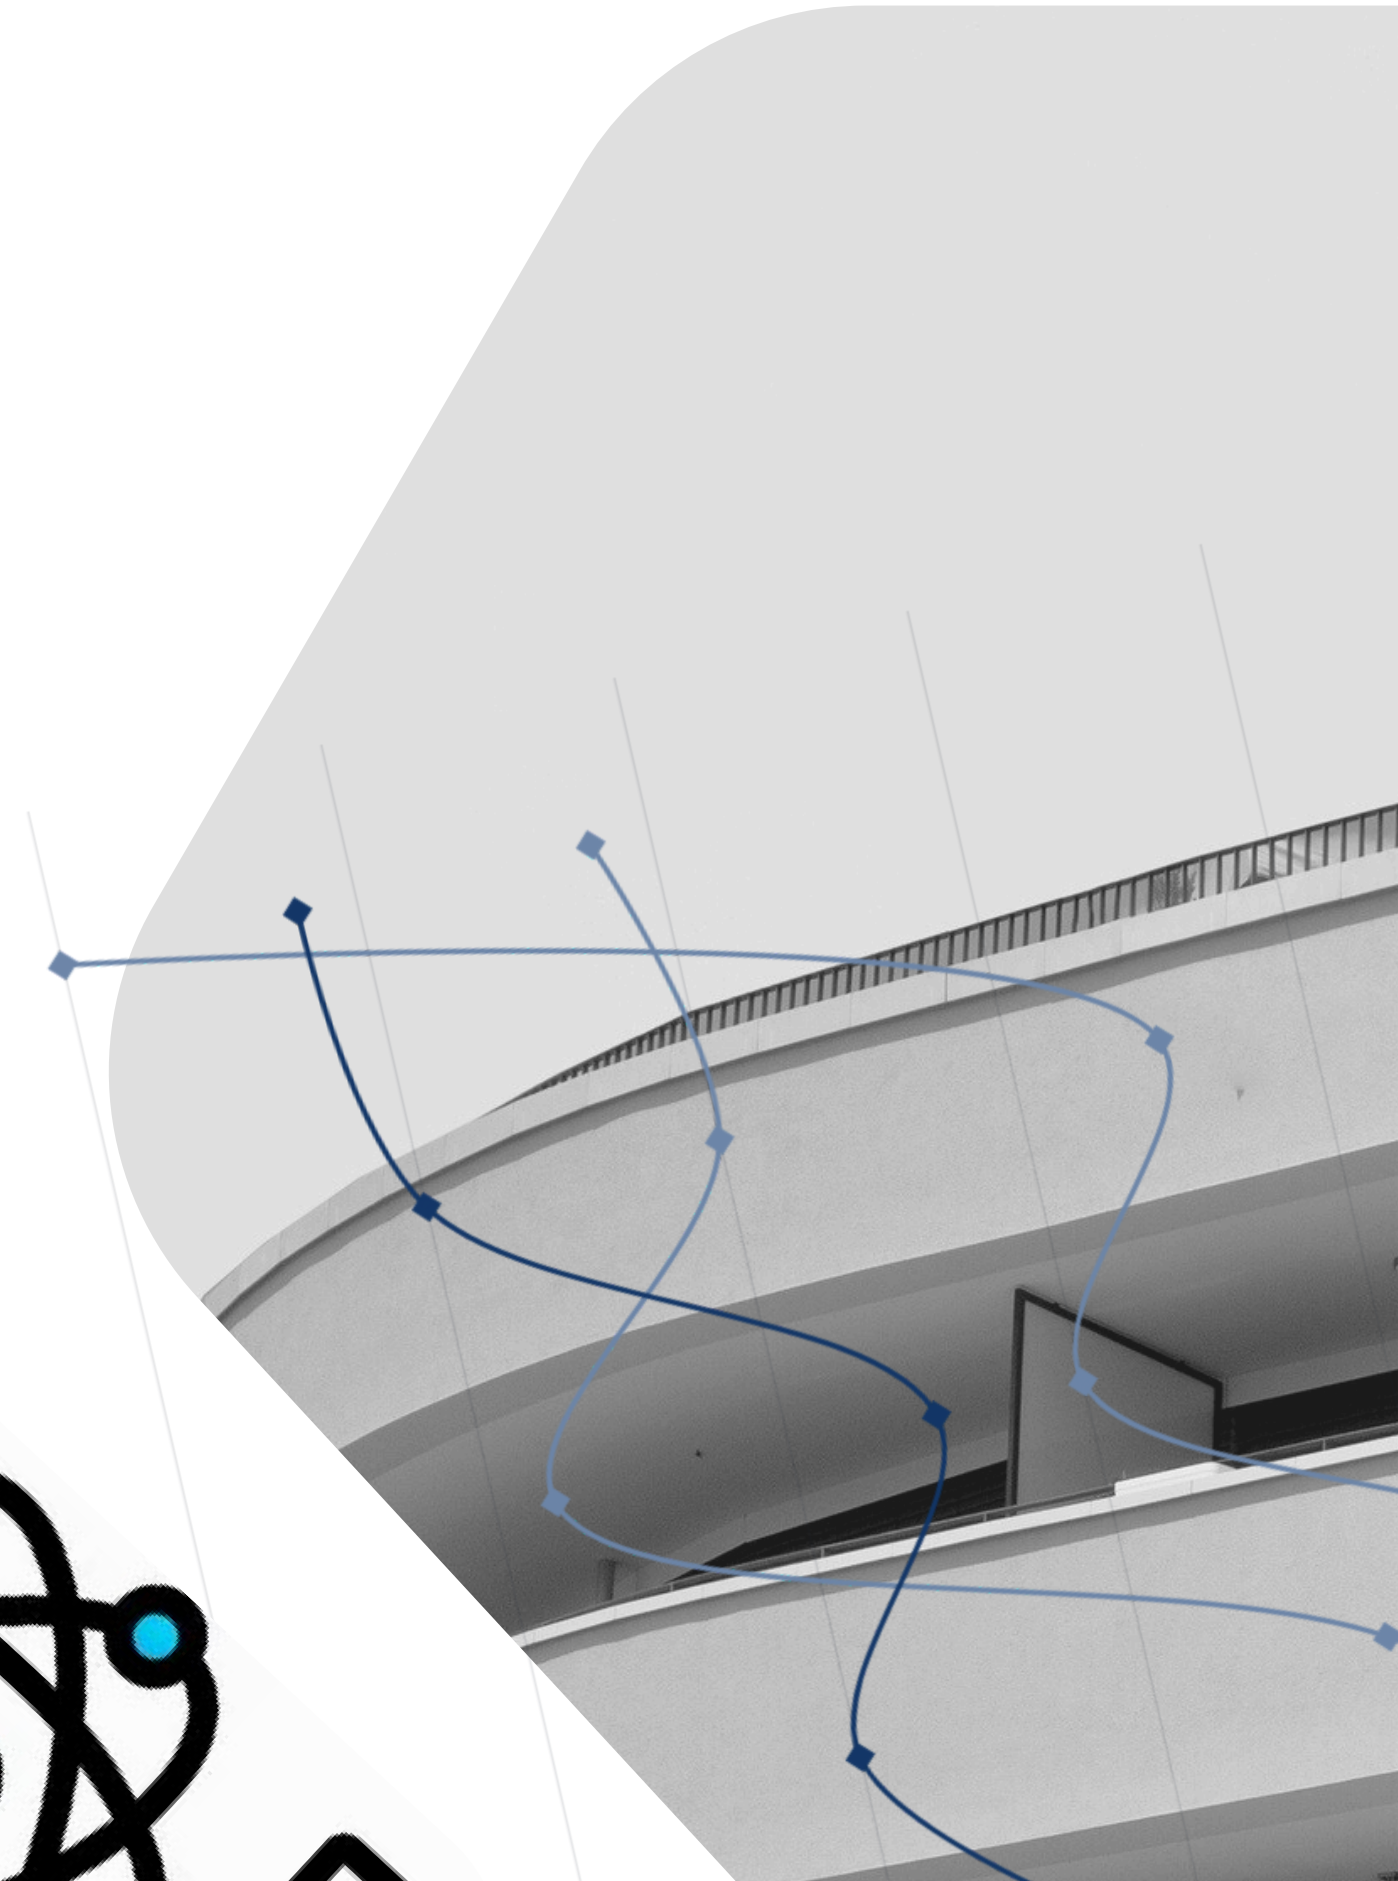

By Application

- **Retail Pharmacy Segment Leads Due to High Accessibility and Consumer-Driven Self-Care Trends**
-
- **The market is segmented based on application into:**
- **Hospital**
- **Retail Pharmacy**
- **Retail pharmacy applications dominate as consumers seek immediate relief from minor ailments without medical consultation, bolstered by widespread availability and marketing efforts. Hospital settings, while crucial for severe cases, represent a smaller OTC portion, focusing on integrated care protocols. This bifurcation illustrates the market's dual role in preventive and acute management, with retail channels driving volume growth through point-of-sale education and product variety.**
